Our today's lecture was on "Nuances of Business Communication". also learnt how languages is used in business and various aspects of business communication. We have also learnt about the paragraph development, language and audiences.  
There are many aspects of business communication but the aspects which I like and got interest is The Forms of Communication and one more is the paragraph development. I found this topic interesting because I didn't know about this earlier and also this will also helped me after my college. So I found this topic very interesting.  
There are mainly three forms of Business Communication.  
1. Internal- operational Communication.  
It is the communication within the organization to achieve the organizational goal and fulfill the business expectations. Internal members of the organization are workers, managers board of directors, member of trade etc.  
It includes the following orders:- instructions, reports, emails, relating to the business, business environment etc.  
2. External- operational communication.  
It structured communication outside of the organization to achieve the organisational goal and fulfill business expectations.  
External parties include customer, suppliers, govt agencies, local community etc.  
It includes following, advertising, follow up services call, brochure, media writing.  
And the third one is personal communication which includes communication in social and cultural animals.  
The second topic which I felt interesting is the Developing Paragraphs.  
A business document begins with a para that introduces the subject of document. This is followed by one or more paragraph that develop the subject and the concluding paragraph summarizes the information that we had provided.  
Really the today's lecture was interesting and very much helpful.
